### Notes:

1. Local entries do not include persons who are unemployed and who do not pay CPF contributions.
2. Local entries minus exits may not equal net employment change as it includes estimates of self-employed persons.
3. Before 2015, foreign entries minus exits may not equal net employment change as consistent work pass data are available from 2014 onwards only.
4. 'excl FDW' refers to excluding foreign domestic workers.
