TOP 3 Job Vacancies in 2024

PMETs

- 1 Teaching & Training Professional
- 2 Software, Web & Multimedia Developer
- 3 Commercial & Marketing Sales Executive

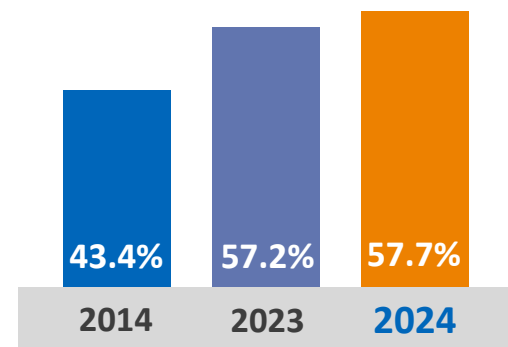

Non-PMETs

- 1 Waiter
- 2 Cleaner
- 3 Shop Sales Assistant

The proportion of PMET vacancies continued to rise in 2024.

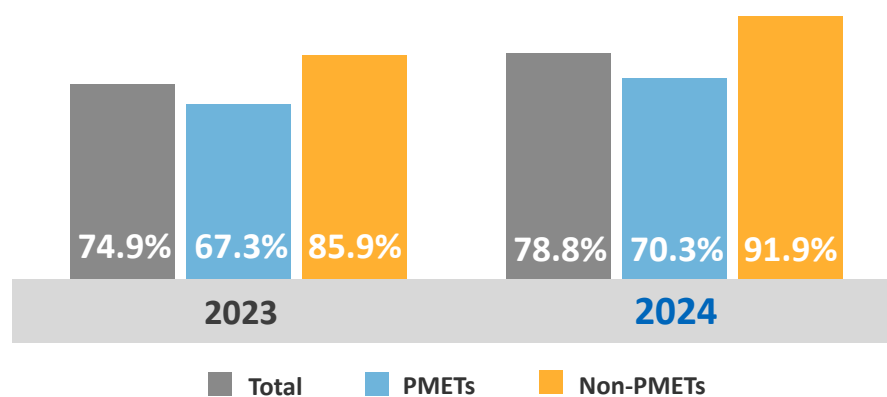

PMET demand was keener within growth sectors, such as:

More employers are looking beyond academic qualifications when filling job vacancies.

The proportion of vacancies for which academic qualification was not the main determinant continued to rise.

Proportion of Job Vacancies For Which Academic Qualifications Were Not The Main Consideration

Reasons for which academic qualifications were not the main consideration:

- 66% Employers prioritise other primary considerations e.g. relevant experience and skillsets
- 36% Skills-based hiring has led to better outcomes based on past candidates hired

The proportion of jobs left vacant for six months or longer has decreased compared to 2023, and it now stands at half the level observed a decade ago.

Proportion of Vacancies Unfilled For Six Months or More
